## STATE BOARD OF AGRICULTURE CERTIFICATE OF NURSERY INSPECTION

**To Whom It May Concern:** Dover, Del., Sept. 1, 1927.

This certifies that I have this day examined the nursery stock and premises of the Nurseries of G. E. Bunting & Sons, Selbyville, Delaware, and that said nursery stock is apparently free from crown gall, peach yellows, peach rosette, the San Jose scale, and other plant diseases and insects of a seriously dangerous nature, that may be transferred on nursery stock.

This certificate may be revoked by the State Board of Agriculture for cause, and it is invalid after August 31, 1928, and does not include nursery stock not grown on the above named premises unless such stock is covered by certificate of a State or Government officer and accepted by the State Board of Agriculture.

J. F. ADAMS, Inspector.
